

Tapestry

Tapestry is an online learning journal which enables staff and parents and carers to record their child's progress using photos and written observations and linking them to the Early Years assessment criteria. Photos, videos and observations help us to capture moments that cannot be easily demonstrated on paper e.g. den building, risk taking or problem solving. We will use Tapestry as 50% of recording the children's learning. The other 50% will be child initiated mark making, drawing and early writing encouraged through play. www.tapestryjournal.com
